

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-23. (cancelled)

24. (Currently amended) A method of treating inflammation and pain, comprising administering an anti-inflammatory analgesic drug comprising a compound of formula (I)

Formula (I)

wherein A is present or absent and represents a pharmaceutically acceptable inorganic or organic base, or a basic amino acid,

or a pharmaceutically acceptable salt thereof, or a mixture thereof with povidone, phospholipids or cyclodextrin,

wherein the anti-inflammatory analgesic drug has a LD₅₀ toxicity at least as low as 2355.5 mg/kg.

25. (Previously presented) The method according to claim 24, wherein A is trans-4-methyl-cyclohexylamine or trans-4-tert-butyl-cyclohexylamine.

10/541,058

In re SUN, et al.

26. (Previously presented) The method according to claim 24, wherein A is arginine or lysine.

27. (Currently amended) The [[A]] method according to claim 24, wherein said mixture is an associate of said compound of formula (I) wherein A is absent with povidone.

28. (Previously presented) The method according to claim 24, wherein said mixture is a complex of said compound of formula (I) wherein A is absent with phospholipids.

29. (Previously presented) The method according to claim 24, wherein said mixture is an inclusion of said compound of formula (I) wherein A is absent and cyclodextrin.

30. (Previously presented) The method according to claim 24, wherein the drug is in the form of oral preparation, injection, suppository, drop, or preparation for external use.
